PRICE LIST

SHIPPING SEASONS—

April, May and early June are most advantageous spring shipping months. Fall season begins in late August and continues until late November.

LIBRARY
REC'D
★ FEB 24 1953

U. S. Department of Agriculture

SHIPPING METHODS—

Express is most advantageous when it is not possible to call by car or truck at the nursery. Freight in less-than-carload quantities is generally not recommended due to the additional time required for delivery. Unless you specify how shipment is to be made we will use our best judgment. Transportation charges are collect.

PACKING—

Plants are carefully packed to withstand 10 days or more in shipment without injury. Charge for boxing or baling is made at cost and averages approximately 15 percent of plant cost.

18-24" hgt.	7.50	3-½' hgt.	15.00

Evergreen Trees, Flowering Shrubs, and Other General Nursery Stock

Although we specialize in Rhododendrons and other native plants we also have a stock of the better evergreen and deciduous trees, shrubs, vines, ground cover plants, etc. This material is attractively displayed in our sales area and customers may make their own personal selection of plants to take with them or to be shipped at a later time. Sorry, we have no catalogue of this stock. You are cordially invited to visit our nursery and display gardens.
